Boys Get Glimpse of Astronomy In Program at Fresh Air Camp New York Times (1857-Current file); Jul 21, 1968; ProQuest Historical Newspapers The New York Times pg. 56

Boys Get Glimpse of Astronomy In Program at Fresh Air Camp

A newly organized program in astronomy designed to broaden the perspectives of under-privileged New York City youths has been established at Camp Pioneer, the Fresh Air Fund's camp for boys 13 and 14 years old near Fishkill, N.Y. A contribution of two 6-inch telescopes and the cooperation of the Amateur Astronomers Association have made possible the program which Bill Hub-Anateur Astronomers Association have made possible the program, which Bill Hub-ner, the camp director, de-scribed as one of the most popular activities at the camp. "These kids live in a night-time world of street lamps, neon signs and polluted, over-cast skies," he said. "For many, it is their first real look at the stars." The astronomy counselor is Ronald Abileab

The astronomy counselor is Ronald Abileah, 17 years old, whose own interest in astron-omy dates to 1960. When When omy

only 13, he built a radio tele-scope at his home in Forest Hills, Queens. Astronomy, he said, has had a profound influence on some of the campers. "There was one 13-year-old who was a real trouble-maker until he found an interest in stronomy," he recalled. "The boy was so in-spired by his firs: night of star-gazing that he recorded his experiences in a three-page composition." The astronomy program and other activities at the seven camps at Sharpe Reservation are supported by contributions

camps at Sharpe Reservation are supported by contributions to the Fresh Air Fund's camp-ing and Friendly Town pro-grams, which will serve 17-000 needy children this sum-mer. Tax-deductible contributions may be sent to the Fresh Air Fund, 244 West 41st Street, New York, N.Y. 10036.
